

“Gold Standard” Means Unrivalled Freshness

Arctic Cod Liver Oil

available in:

lemon 8 ounce, orange 8 & 16 ounce, peach 8 ounce,
spiced apple 8 ounce, strawberry 8 ounce,
and unflavored 8 ounce

Nordic Naturals is the only company in the world that uses 100% Arctic Cod livers in its CLO formulas—fish body oils and synthetic additives are never used. No one else can honestly say the same.

And, over the last 10 years, we have developed three innovative methods—our “Gold Standard”—to ensure that our cod liver oil is the freshest: First, we work only with independent fisherman in Norway in order to manage the sustainability and quality of our raw materials. Second, we use a patented, nitrogen-based system to minimize oxidation at every stage of processing. This protects the fish oil from decomposition, and maximizes freshness. Third, we locate our processing facility right next to the harbor, minimizing transportation time. This means that a few short hours after being caught, the fresh Arctic cod are delivered to us whole for immediate processing.

Why Nordic Naturals Arctic Cod Liver Oil?:

- Our Gold Standard ensures exceptional freshness and a great taste, which improves compliance and results
- Contains the highest DHA level of any cod liver oil
- Provides immune and stress support*

Quality Counts

As with all Nordic Naturals products, Arctic Cod Liver Oil is in the natural triglyceride form for optimal absorption. Our patented “nitrogen processing” ensures that Arctic Cod Liver Oil is absolutely pure and fresh. Fresh fish oils are better for the body, and do not create negative side effects such as repeat or burp-back.

Pure and fresh fish oil supplements have a high safety profile and few, if any, side effects. Physicians should be advised of individuals taking more than three grams of combined EPA + DHA daily, or if they are taking certain medications.

*Nordic Naturals fish oils surpass all national and international pharmaceutical standards for freshness. Every batch of Nordic Naturals fish oils is 3rd party tested to guarantee exceptional freshness and purity levels, and is free** from heavy metals and environmental toxins.*

** no detected heavy metals at 10 ppb, dioxins/PCBs at 0.5 ppt

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
